

## Innovative Solutions for Onboard Security

### Overview:

We are looking for innovative proposals to strengthen on board security in the car.

### Current Challenges:

India is still having tremendous amount of road accidents along with high figures of mortality. As an OEM which is taking this point as our top priority, we are exploring disruptive ideas with frugal approach to play on security.

### Business Requirements:

We could use ideas such as accessories, data, video, etc to strengthen the on board security.
